

Electrical and Computer Engineering **XXXX**
Course Name
Semester Taught

Instructor: Instructor name, Instructor phone, Instructor email

A. Outcomes Assessment (Possible brief description)

Outcome	Measurement device	Score (0-2)
1. Fill in the first outcome here.	Briefly describe the activities you will use to assess (e.g., homework, labs, quizzes, midterms, oral evaluation)	
2.		
3.		
4.		
5.		
6.		

B. How well were students prepared for the course?

The purpose of this question is to assess how well the courses are articulating with each other. Describe issues relating to pre-requisite classes if you perceive a need for a change.

C. Significant issues from student evaluations

Describe issues that may affect how the course is taught next time around.

D. Discussion

What scores were low, and why. What can be done to improve this for the next time around ...

Next time, I would modify

The following went well ...

We need to change

Facilities that would help this ...
